This device is used for lifting and tipping of box pallet's (1200 x 800 mm) content. The whole machine is made of closed stainless steel profiles. The lifting is done through two hydraulic cylinders. A part of the tipping device is feeding hopper where the box pallet is stuffed up with silicone gasket to avoid leaking the raw material from the pallet.

Technical data

Length	2490 mm
Width	1510 mm
Height	1810 mm
Weight	383 kg
Load capacity	500 kg
Engine power	2,2 kW
Voltage system	400/230 V – 50 Hz
IP code	IP 54
